

Qualified Professionals

All large corporate professional services at Grossman Yanak & Ford LLP are provided by highly-trained and highly-experienced professionals led by partners who are also substantially involved in all projects.

Each of our partners carries significant educational credentials, including graduate degrees. As a group, they have participated in, literally, thousands, of complex business transactions and situations, whereby their expertise, innovation and creativity have led to successful and cost beneficial resolutions.

Other team members will include the finest and most experienced professionals available, depending on project mandates. All of our professionals have worked with large corporate clients and, as a group, add to our portfolio of capabilities.

We are continually complimented on our level of client attentiveness, our commitment to meeting and exceeding client expectations and, finally, the quality of our work product. We are proud of the team we have built and the reputation that has grown from our team's efforts.

Overview

Grossman Yanak & Ford LLP has developed a diverse array of technical service capabilities designed to address a broad range of needs within the large corporate business sector in our region. This unique expertise provides both publicly and privately owned companies with annual revenues in excess of \$200 million an excellent alternative to utilizing larger regional and "Big Four" firms.

Our success in serving these needs is based on our commitment to focusing highly experienced professionals on all aspects of these projects. This focus, in addition to low staff turnover and competitive pricing, has enabled our firm to be involved with some of our region's top corporations.

In the course of providing large corporate professional services, we have encountered numerous opportunities that enhance management's use of outside accountants and consultants. A sample of these services includes:

- Corporate Tax Compliance Services
- Corporate Tax Planning
- Corporate Acquisitions/Divestitures Tax Planning
- Executive Tax Compliance and Planning
- Pension Plan Audits
- Subsidiary Audits
- SFAS 109 Tax Provision Preparation
- Acquisition Due Diligence Services
- Agreed Upon Procedures
- SFAS 141 Purchase Price Allocations
- SFAS 142 Valuation Impairment Analysis
- Special Needs Consultation and Outsourcing
- Valuations Related to Acquisition Targets
- Litigation Support/Damage Claims
- TSG work?

Grossman Yanak & Ford LLP

Large Company Professional Services ...

QUALITY YOU DESERVE

Service Approach

Grossman Yanak & Ford LLP utilizes the firm's fundamental approach to serving our clients as the foundation to providing large company professional services. That strategy is to involve professionals with a higher level of experience on a significant basis in addressing clients' needs, and to do so on a competitive and cost-effective basis. This simple approach has led to growth and success throughout all the disciplines of our practice, and has been particularly effective in our relationships with large clients.

Serving large companies requires attention to detail and a higher level focus than what is generally available

from larger professional service providers. In a business environment of ever-increasing complexity, we find it impossible to properly address our client's needs without using our most experienced individuals and allotting them the time to develop an intimate understanding of the company and the project parameters. Such a commitment requires a competitive fee structure to ensure service team continuity and client satisfaction.

At Grossman Yanak & Ford LLP, highly-skilled professionals with a Certified Public Accountant background, as well as extensive business skills and training, provide the best large company services available.
