Tip of the Iceberg

Selecting a software application to help manage your business is a huge responsibility. The correct system can help your organization grow and flourish while a misfit system can be disruptive and hinder future opportunities.

The worst scenario of all is the right system ~ wrong implementation team! Countless case studies, articles and whitepapers have been published outlining IT implementation project failures. Thus, the software selection phase is only the tip of the iceberg!

Our Team

Our project team is lead by a dedicated project manager responsible for ensuring your project runs as planned and delivers the expected results. The project manager will compose a team matched with experienced, skilled consultants throughout all phases of your project to provide quality services best aligned with your needs.

Focus on Success

Our project implementation approach focuses on proven success factors. These success factors are a direct result of information gathered from IT executive managers.

1. User Involvement
2. Executive Management Support
3. Clear Statement of Requirements
4. Proper Planning
5. Realistic Expectations
6. Smaller Project Milestones
7. Competent Staff
8. Ownership
9. Clear Vision & Objectives
10. Hard-Working, Focused Staff

* The Standish Group 1995, Chaos Report
